

MUHAMMAD FAYYAZ AHMED

MERN & MEAN Stack Developer

fayyazalvi7@gmail.com | [linkedin.com/in/fayyaz](https://www.linkedin.com/in/fayyaz) | github.com/fayyaz | Faisalabad, Pakistan

CAREER OBJECTIVE

Motivated final-year BS Software Engineering student (Session 2022–2026, graduating June 2026) at NTU Faisalabad, with solid hands-on experience building full-stack web applications using the MERN and MEAN stacks. Proficient in React, Node.js, Express.js, MongoDB, and Angular. Seeking a full-time developer role, internship, or freelance opportunity where I can contribute, grow, and deliver real results.

EDUCATION

Bachelor of Science — Software Engineering

2022 – June 2026

National Textile University (NTU) · Faisalabad, Pakistan

- Session: 2022–2026 | Expected Graduation: June 2026
- Relevant Coursework: Data Structures & Algorithms, Web Engineering, Database Systems, Object-Oriented Programming, Software Design
- Final Year Project: Full-stack web application developed using MERN stack technologies

PROJECTS

TaskFlow — Task Management System

2024

React.js · Node.js · Express.js · MongoDB · JWT Auth | MERN Stack

- Developed a full-stack task manager with user registration, login, real-time task tracking, priority levels, and deadline reminders
- Built secure REST API using Node.js & Express with JWT authentication and role-based protected routes
- Designed responsive React frontend with component-based architecture and React Router DOM for single-page navigation

EduTrack — Student Result Management System

2024

React.js · Node.js · MongoDB · Bootstrap 5 | MERN Stack

- Built a role-based academic management system: Admin users manage and publish grades; Students view and download their results
- Implemented JWT-based authentication with RBAC (Role-Based Access Control) for two distinct user types
- Integrated server-side PDF generation allowing students to download formatted result transcripts directly from the portal

ShopNest — E-Commerce Web Application

2025

React.js · Node.js · Express.js · MongoDB · Ant Design | MERN Stack

- Developed a complete e-commerce platform with product catalogue, shopping cart, order tracking, and an admin dashboard
- Created a full REST API for product CRUD operations, order management, and inventory control using MongoDB
- Used Ant Design component library to build a clean, professional, and fully responsive user interface

CoreAdmin — Angular Admin Dashboard

2025

Angular · Node.js · Express.js · MongoDB · Chart.js | MEAN Stack

- Built a fully responsive admin panel using Angular with data tables, real-time charts, user management, and RBAC
- Integrated Chart.js to display live business analytics and KPI dashboards with filtering and data export features
- Demonstrated complete MEAN stack proficiency: Angular frontend, Express REST API, and MongoDB as the database layer

TECHNICAL SKILLS

Frontend: React.js, Angular, JavaScript (ES6+), HTML5, CSS3, Bootstrap 5, SCSS / Sass, Ant Design

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, Socket.io

Database: MongoDB, Mongoose ODM

Tools & Platforms: Git, GitHub, Postman, VS Code, npm, Vercel, Render

Core Concepts: MVC Architecture, CRUD Operations, Component-Based UI Development, Role-Based Access Control

ADDITIONAL INFORMATION

Availability: Immediately available — open to Full-time, Internship, and Freelance roles

Portfolio: fayyaz.vercel.app (React portfolio with live project demos — update link after deploy)

Languages: Urdu (Native) · English (Professional)

Open to: Opportunities in Lahore, Faisalabad, Islamabad, and remote positions
